

TRON WALLET
ACTIVATION

Please use the
recommended
wallets only

Do not use
exchanger wallet

Before we proceed with Wallet activation,
Let's understand why we need it

TronFinite has integrated with Tronscan.

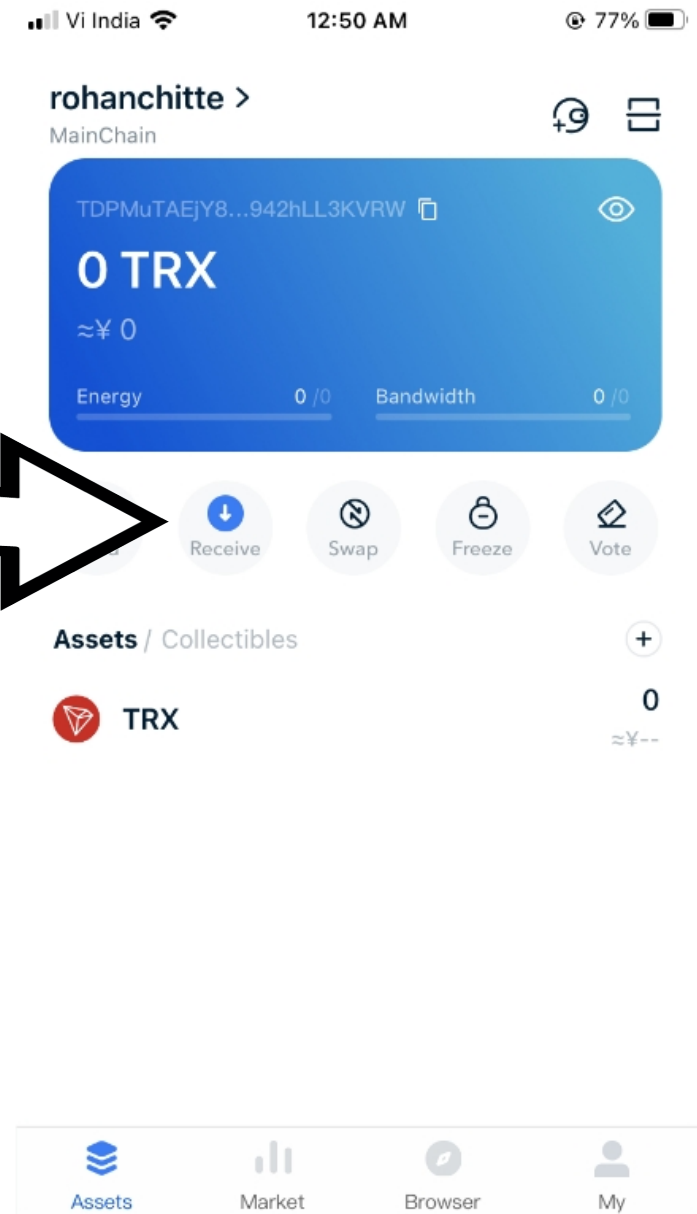

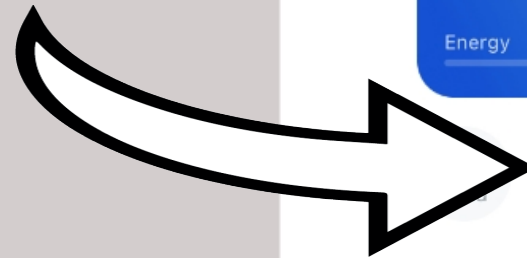

This means that only activated Wallets will be able to get paid unpaid balance to their blockchain apps.

This also means that sometimes, if users are using exchange wallets or using blockchain apps without activation, their address will get automatically removed.

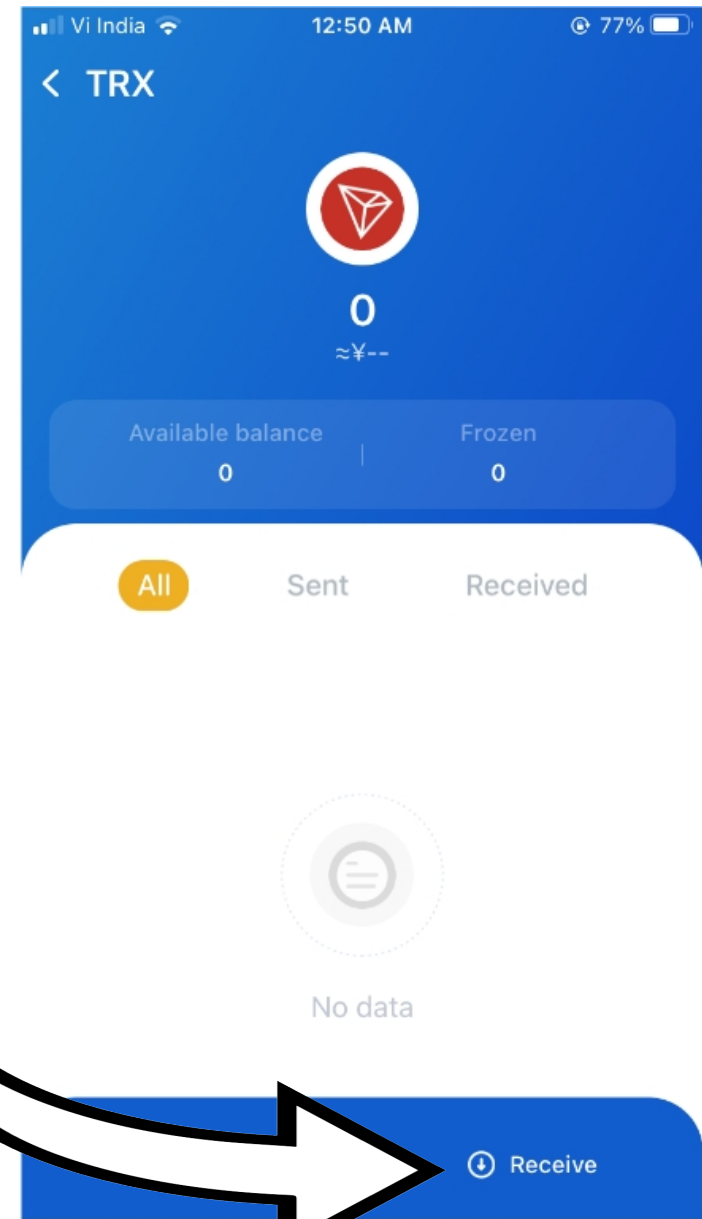

Hence, To receive any unpaid balance, users need to follow this activation guide starting from next page

Open your
wallet app

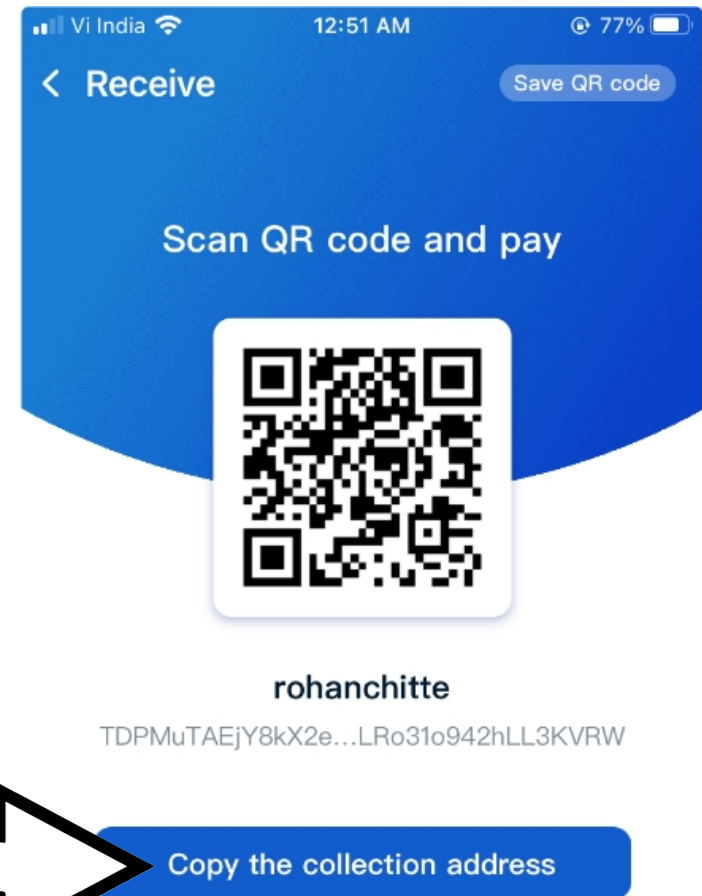

Click on
Receive

Click on
Receive

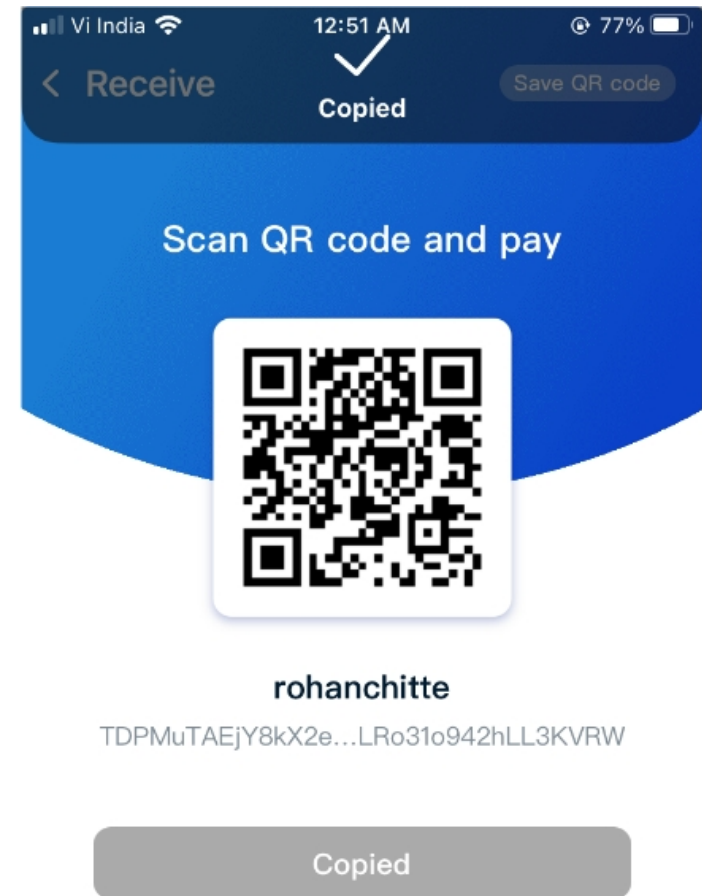

Copy the
collection
address

Send this
address to your
up-line

Ask your up-
line to send 0.1
TRX
